

Suspension hook for a motor vehicle exhaust tract tube

ABSTRACT

Suspension hook for a motor vehicle exhaust tract tube (2) constituted by a pin (3) which comprises a generally cylindrical end-piece (7) for fixing to at least one spacer and at least one spacer (8) comprising, at a first end, at least one lug (12) for fixing to the fixing end-piece, and, at a second end, at least one plate (11) for fixing to a tube (2), the at least one fixing lug (12) and the fixing end-piece (7) being fixed by means of welding. The at least one fixing lug and the fixing end-piece co-operate by means of a contact of the type involving a plane on a generating line so as to be able to adjust, before welding, the spacing of the pin and the at least one plate for fixing to a tube.
